

# Expert Reports and Consulting

## Expert Reports and Studies

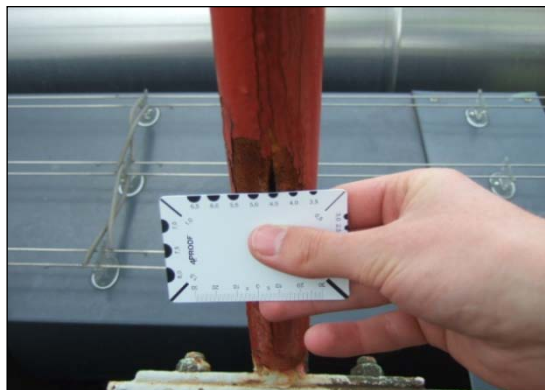

The issue of different expert reports and studies are closely associated with the development of the partners to experts in the range of concrete repair as well as depots of railway vehicles.

Based on an over 30 years formed competence and gained experience as well as a specific further training the following performance ranges can be named:

- Creation of technical manuals for constructions
- Technical examinations of constructions due to VDI 6200
- Conservation of evidence
- Evaluation at industrial construction
- Due-Diligence for properties and buildings
- Surveyor's report:
  - ...of concrete- and steel constructions
  - ...of railway- and industrial constructions
  - ...of washing tunnels
- Technical and spatial system planning
- Creation of roombooks
- Creation of function programs

Thereby specific values of costs are calculated in case of surveyor's reports if desired.

## Technical Consulting

The tasks at the beginning, the difficulties or unplanned events during a project as well as structural questions in organizations have demanded us numerous as experts, advisors and trouble-shooters. A second opinion on our part has been often necessary.

Based on specialized as well as personal experiences at numerous situations of conflict the following performance ranges can be named:

- Organization of project structures
- Organization of process structures
- Bankruptcy consulting during the construction phase
- Conservation of evidence during the construction phase
- Optimization of space utilization
- Analysis of weak points and risks

A view from a different perspective is often helpful to cut knot.

Have a look with us from above.
